

Ye Yint Myint Myat

Frontend Engineer

Email yeyintmyintmyat.dev@gmail.com

Address 53/34/73 Binh Loi Street, Ward 13, Binh Thanh District, Ho Chi Minh City, Vietnam

●Objective

A Frontend Engineer with hands-on experience building responsive, user-focused web interfaces using React.js and Next.js since January 2024. Skilled at solving problems and collaborating within teams, with a passion for crafting clean, performant user experiences and a growing interest in extending that skill set to React Native for cross-platform mobile development.

●Skills

Programming Languages

Java JavaScript TypeScript

Mobile

React Native Expo

Frontend

HTML CSS JSP JQuery Bootstrap Tailwind CSS React.JS Next.JS

Backend

Servlet Java Node JS Express JS

Frameworks & Libraries

Thymeleaf JUnit Spring Spring Boot JPA Spring Data JPA Zustand Redux Toolkit

Database

MySQL MongoDB

Tools

Eclipse IntelliJ VS Code Figma Postman

Language

English (Intermediate)

Additional Skills

Communication Creativity

●Certifications

- Programming Fundamental Course (ACE Inspiration)
- Java Web Development (ACE Inspiration)
- On Job Training (ACE Inspiration)
- On Job Training for React JS at Ace Data Systems

●Education

● Information Technology — Van Lang Saigon College

October 2025 – Current

●Experience

● AGB Fiber Internet Tachileik (CRM)

Java · Spring Boot · Thymeleaf · HTML · CSS · JavaScript · Tailwind CSS | November 2025 – December 2025

Full-stack contribution to this CRM system — not just the front end. Built the backend with Java and Spring Boot (rendered via Thymeleaf), and designed and implemented the UI with HTML, CSS, JavaScript and Tailwind CSS.

● Entrance-X (Event Ticket) — Team God-X

Spring Boot · JPA Repository · Java · HTML · CSS · JavaScript · Thymeleaf · Bootstrap | March 25 – April 29

Designed the platform to be easy to use for both customers and organizations. The admin dashboard displays the total number of users and organizers on the website. Coded 80% of the UI and 90% of the front end for this project.

Features

User

- Users can easily search for the event they want in the search bar
- User can purchase ticket with online payment system
- When Admin approved, User will get the ticket with QR code

Organizer

- Organizer can add event (valid once Admin approves)
- When adding an event, Organizer adds QR code for the payment system and full event information
- Organizer has an events history

Admin

- Admin can approve Organizers, events, and tickets
- Admin can manage the accounts of Users and Organizers

● Students Management System

Spring Boot · JPA Repository · Java · HTML · CSS · JavaScript · Thymeleaf · Bootstrap · JUnit · Jasper Report | June 3 – June 30

Designed 100% of the UI for a responsive, user-friendly experience. Usable on both laptop and phone.

Features

User

- Can see every course offered by the school, even before signing up
- After signing up, can register for a course
- Becomes a student once Admin approves
- Has access to their student list

Admin / Default-Admin

- Admin can add courses
- Admin can manage students and users
- Promoting a User to Admin grants all Admin and Default-Admin functions

● Job Recruitment and Offering Management System (JROMS) — Team Hundred Percent

Spring Boot · Spring Data JPA · JPA Repository · Java · HTML · CSS · jQuery · JavaScript · Thymeleaf · Bootstrap · JUnit · Jasper Report | July 3 – August 29

Focused on user experience and a highly responsive UI.

Features

Candidate side

- Can see which vacancies are active and urgent
- Can filter by position and department
- Can submit for each vacancy

Junior-HR

- Can add positions and interviews, download CVs and reports
- Can view dashboard and mail inbox

Senior-HR

- Everything Junior-HR can do
- Can change candidate selections, send interview/offer emails, employ candidates
- Can recall failed, rejected, or cancelled candidates

Admin

- Everything Senior-HR can do
- Can add/deactivate other users or change roles (except other admins)
- Can add/edit departments and set interview status

Default-Admin

- Everything Admin can do, plus can deactivate other admins

Interviewer / Department-Head

- Can give candidate reviews and interview status
- Can view department dashboard and employee list

● Insurance System — Ace Data Systems (AQME)

Next.js · Node.js · Express.js · Zustand · TypeScript · Redis · Docker · PostgreSQL · Strapi · Tailwind CSS | Joined Jan 2024 – Nov 2024

- Developed and implemented responsive UI based on Figma prototypes for a mobile-first application
- Integrated API calls to fetch and display real-time data efficiently
- Ensured a seamless user experience across different mobile devices
- Optimized UI components for performance and accessibility

● Insurance System — D3-SG (AXURANCE)

Next.js · Node.js · Express.js · Zustand · TypeScript · PostgreSQL · Tailwind CSS | Started January 2025

- Designed and developed a responsive, mobile-first UI based on Figma prototypes
- Integrated APIs to fetch and display real-time data efficiently
- Ensured a smooth user experience through responsive design and performance optimization
- Collaborated with backend developers to define and implement API requirements
- Conducted testing and debugging for cross-device compatibility
